- Contains a “Business/Services Directory” with necessary and useful addresses. It includes product and service suppliers as well as churches, clubs and organizations and other categories. The directory is searchable by category.
- Frequent updates on important topics as well as a quarterly newsletter are important features of the website.
- WWW.HOWTOGERMANY.COM normally ranks in the top five of Google and other search engine results for many important topics related to Germany. It's Google Page Ranking is six.
- Hundreds of sites link to HTG Online generating thousands of visitors.

There are a variety of advertising opportunities on the website. They include:

A **Linked Listing** in the website’s searchable database displays company or organization name, logo, postal address, telephone and fax numbers, clickable hyperlinks to an e-mail address and website.

A **Storefront**, which is independent of any listing in the searchable database, provides a hot button with company logo on the website’s home page linked to a separate display page about your company or organization, including photographs and a 300-500 word description of its products and services. Full contact information and hot links to email and website are norman parts of the Storefront display page. It’s like a mini-website. And, it’s the most popular advertising method. Text links to all Storefront pages are also placed at the end of relevant articles.

There are three types of **Banner Ads** available. A **Top Banner** appears on all pages of the website. A **Right Column Banner** appears on the home page as well as on article pages of relevant content. It is normally placed directly below the Storefronts. The **Center On Page Banner** can appear on the Home Page as well as on article pages of content. It can be placed directly in a specific article as well. Location of the placement on the home page or in an article is normally in the top half of the content. The Banner Ads are linked directly to an advertiser’s website.
